To Whom It May Concern:

I would like to express our satisfaction with the work ethics and professionalism that Office Solutions demonstrated during all the stages of our purchase of our new furniture for the office.

I would like to personally mention Mr. George Tchernychev who took care of our account from A to Z with attention to all the details which made our experience a pleasant one.

Office Solutions actually not ally supplied our furniture but with their design ideas changed the appearance of our office. With the help of the furniture our office now looks completely deferent. It has become an enjoyable working environment.

During the delivery and installation of the furniture they had qualified personnel who worked efficiently and quickly.

I would like to once again mention our satisfaction with Office Solutions, and I would recommend them if are in the process of selecting a furniture supplier who is not just a furniture supplier but a company that realizes that they are in the service business.

Regards,

Sergei Grigoriants,
Administrative Director
